Learning
Our farm project is moving along with children constructing sheds, fences and houses. We even have a paddock with a lush green crop.

Check out our display of photos showing the progress of our children highly engaged in learning.

A good farming app for kids is “Hay Day” - check it out.

Our Powerful Learner program continues to grow and thrive as the children take on more responsibilities and lead the group. The team leader now has a designated vest and name badge. I will e-mail a learning story for your child at the conclusion of their team leader role.

Our children have harvested the winter vegies with the potatoes creating the most interest. The children then helped prepare, cook and eat wedges. Some of our summer vegies have been planted, hoping to harvest before the end of term 4.

Work placement
Hanna Pridham will be joining the team from Wednesday this week as she works towards completing her qualifications in early childhood.

Please make her feel welcome.

Head, Shoulders, Knees and toes.

Please let me know if you would like an audio copy burnt to CD.

Please take the time to complete the Parent Opinion Survey. We appreciate your feedback.

There has been a lot of media around staffing ratios and available places at kindergartens. Please note that this does not currently impact on Bute Kindy.

Regards Vicki

Transition Meeting
Transition meetings will be held on Tuesday 15th September at the kindy from 8.30am. This is an important meeting allowing for the transfer of information from the kindy to the school. It allows families to hear the information transferred, add to information and ask questions. The meeting will include Meredith Pridham the Junior Primary Teacher from the Bute Primary School and myself. Please see Geraldine or myself to make a time.
